<b>Operating environment</b>	
 <b>Caution</b>	<ul style="list-style-type: none"><li>■ Do not use this product in a very moist environment such as the bathroom.</li><li>■ Stop using this product immediately when the ambient temperature changes sharply.</li><li>■ Do not use this product in any heavily-dusty or caustic environment.</li><li>■ Do not use this product in a small space or a place without good ventilation.</li></ul>
<b>Solutions to ordinary malfunctions</b>	
 <b>Caution</b>	<ul style="list-style-type: none"><li>■ If the motor sounds during operation of this product, this is the normal operation sound.</li><li>■ If the controller cannot work normally, check whether the plug and the power socket are connected reliably, and whether the power switch is turned on.</li><li>■ If the rated working time is over, this product will automatically activate the power-off button; If this product keeps operating for a long period of time, the temperature protector will stop this product automatically. The product can be used again after half an hour.</li></ul>

## Installation Parts

### Calf installation instructions

1. After connecting the lower leg and the air tube on the massage chair with the wire harness, untie the fixed pipeline belt and insert the connecting part into the seat frame (Fig. 1).
2. Sleeve the lower leg fixing block on the round tubes on the left and right sides of the lower leg (Fig. 2).
3. Hang the lower leg sleeved with the fixing block on the hook of the massage chair seat frame (Fig. 3).
4. Fasten the lower leg on the massage chair with 4 M4 screws (2 on the left and 2 on the right). Check whether there is any abnormality in the up-and-down turning and whethe

## Place Massage Chair

### Installation placement

**Make sure there is enough space for the massage chair can be tilted at least 15 cm.**

Do not expose the massage chair directly to high temperature environment due to sunlight (such as: in front of heating equipment), and place it to where can avoid high temperature and direct sunlight. It is recommended to lay a soft cushion for long-term use in a designated location. When laying the cushion, the size of the cushion should be enough to cover Keep the range where the machine touches the floor and the range where your feet touch the floor.

### Product lift instruction

**Require team work to lift and move the chair to avoid injury.**

1. Please lift the massage chair to move it on vulnerable ground such as wooden floor.  
2. When moving on a similar wooden floor, it is recommended to lift it. Avoid damage to the casters. When the floor is lifted and moved to the designated position, be careful to keep your hands out of the way to avoid injury, and be careful of your feet being crushed. Do not let go of the unit until the unit is completely flat, the floor may be damaged, therefore, it is recommended to place mats, etc. on the floor.

## Place Massage Chair

### Move method

**Use the rear casters to move the massage chair. Move the chair by tilting it down and backward about 45° as shown in the diagram.**

**NOTE: Excessive force to title will cause the chair to tip over completely and product damage.**

1. Before moving, please shut down the machine properly to reset the whole machine, and then cut off the power.
2. Please keep the chair vacant when moving. (People, pets or clutter will not be able to stay on the chair.)
3. When moving, do not cross a drop barrier higher than 2mm or a gap greater than 5mm.
4. When using casters to move this product, single continuous movement is not supported; if the distance exceeds 50 meters, please make this product move slowly and evenly.

### How to disassemble and use headrest cushion and backrest cushion

Using a headrest cushion can reduce the intensity of kneading massage on the neck and shoulders, and you can decide whether to use a headrest cushion according to your needs (recommended to use a headrest cushion). The backrest cushion and the backrest are connected by a zipper (1), and the headrest cushion and the backrest cushion are connected by a zipper (2).

## Before Use

### Check around

Make sure that there are no people, pets and other objects around the unit.

### Make sure there are no foreign objects in the gaps of the machine

Before massaging, make sure that no foreign objects are caught in the legs, feet, etc.  
Under no circumstances allow hands, feet, and head to penetrate into the area between the lower leg mechanism and main body, or the area between the armrest and the capsule.  
Under no circumstances should hands, feet, or head sink under the fabric or leather covering of the massage area.

## Before Use

### Turn on the power

Plug in power cord

Schematic diagram of power on

Turn on the power switch ("I" position)

- Please check the power cord and plug for damage before use.
- Please supply power to this product in accordance with the working power requirements of this product's calibration.
- It is strictly forbidden to use a power supply other than the nominal power supply of this product.
- It is strictly forbidden to connect various power conversion devices without authorization to supply power to this product.

## Product Structure

### Parts description

## Product Structure

### Function distribution

## Product Structure

### I . Introduction to the remote controller

## Product Structure

### II . Introduction to right armrest shortcut keys

## Operation Instructions

### III. Start massage

1. Press the remote controller switch key "  " or press the right armrest switch key "  " to power on.
2. After entering the program, select the automatic program according to the remote controller or the voice prompt, and it will automatically shut down if it is not operated for more than 20 minutes.
3. Automatic angle adjustment, after selecting the automatic program, the massage chair will automatically adjust to the zero gravity angle, just wait for the adjustment to be completed. Or you can press the confirm key "  " to skip and go directly to the next step.

4. Wait for the body sensing to be completed, you can press the confirm key "  " to skip the detection and start the massage directly.
5. The shoulder position is fine-tuned. After the body sensing is completed, the remote controller or the voice prompt will prompt the user to fine-tune the shoulder position. If the massage wheel stops at your shoulder position, you do not need to adjust directly. Press the confirm key "  " to start the massage. If not, Please use the up button "  " and the down button "  " to adjust the massage wheel to your shoulder position and then press the confirm key "  " to start the massage. If there is no operation for more than 20 seconds, the current massage wheel position is directly defaulted to the shoulder position and the massage starts.

## Operation Instructions

### IV. Pause function(Please use this function after power on)

After the massage chair is turned on, press the pause button "  " or the right armrest pause button "  " to enter the pause state, all massage functions will stop, press the pause button "  " or the right armrest pause button "  " again to resume the previous massage state.

Note: In the suspended state, no other functions can be used except power off. (Bluetooth can play music).

## Operation Instructions

### V. Auto mode(Please use this function after power on)

#### 1. Auto mode selection

- (1) Press the remote controller menu key " Menu " to enter the main menu; or press the right armrest auto key " Menu " to enter the auto program menu directly; or press the auto key " ↻ " on right armrest to cycle through the auto programs.
- (2) Select the auto mode option, press " OK " to enter the auto mode menu.

Schematic diagram of automatic program selection

- (3) Select the desired automatic program and press the confirm key " OK " to start the massage.

Main interface

## Operation Instructions

### 2. Automatic program introduction

Function	Description
Fast Massage	Quickly experience all massage effects.
Comfort Massage	The most comfortable massage experience.
Relax Massage	Gentle and comfortable deep massage, which can relieve body fatigue and relax the body.
Full body Massage	Deep massage, which can revive body vitality.
Neck&shoulder Massage	According to the unique neck and shoulder massage method, through effective massage of cervical spine and scapula, neck and shoulder pain can be relieved and neck and shoulder fatigue can be improved.

(1) The user can adjust the speed only after selecting the massage technique or entering the manual mode of part massage

(2) The message speed has 3 levels. Level 1 is the slowest and Level 3 is the the fastest. The speed cannot be adjusted when the massage technique stops.

## Operation Instructions

(3) Interface of speed display.

## VII. Air Massage (please use this function after startup)

1. Air Massage

(1) Air mode selection: as shown in the picture below, enter the air pressure message menu to select the air pressure mode. The air pressure mode includes upper body air pressure, lower body air pressure, whole body air pressure and air pressure intensity.

(2) Air pressure intensity adjustment: after the air pressure function is turned on, the air pressure intensity can be adjusted. There are 3 levels. Level 1 the weakest, and Level 3 is the strongest.

(3) Interface of air pressure display

## Operation Instructions

### VIII. Other function (please use this function after startup)

1. Foot roller

(1) Foot roller: as shown in the picture below, enter the auxiliary function menu to select the intensity of the foot roller. The foot roller massage intensity can be selected from Level 1 to Level 3 or turning off. Level 1 is the weakest and Level 3 is the strongest.

(2) Interface of foot roller display

2. Back heat

Heating switch, as shown in the picture below, enter the auxiliary function menu to select back heat to turn on or off the back heat function.

3. Leg heat

Heating switch, as shown in the picture below, enter the auxiliary function menu to select leg heat to turn on or off the leg heat function.

## Operation Instructions

### IX. Massage Adj (please use this function after startup)

#### 1. 3D str

(1) As shown in the figure below, enter the 3D intensity adjustment menu to adjust the 3D intensity, a total of one to three adjustable levels. Level 1 means the weakest intensity, Level 3 means the strongest intensity.

(2) Or rotate 3D knob  on right armrest to adjust.

#### 2. Air str

As shown in the picture below, enter the air pressure intensity adjustment menu to adjust the air pressure intensity. 3 levels can be adjusted. Level 1 the weakest and Level 3 the strongest. (under the main information interface)

Interface of Air pressure display

#### 3. Time Adj

As shown in the picture below, entering the time adjustment menu can increase or decrease the massage time, and the adjustment range is 0 ~ 40 minutes. When the countdown of the massage time is reduced to 0, the massage is automatically turned off, the back roller is reset, and the posture of the massage chair remains still. (under the main information interface)

## Operation Instructions

#### 4. Shoulder adj

As shown in the picture below, enter the shoulder position menu to fine tune the shoulder position up or down. When the back roller presses the shoulder, you can adjust the shoulder position if you feel it is inaccurate. (under the main information interface)

### X. Angle adjustment

#### 1. Zero gravity

There are 3 levels, corresponding to three set massage chair angles. Press the zero gravity button " " or press the right armrest zero gravity button " " on the manual controller to adjust three zero gravity levels or turn off zero gravity.

#### 2. Full body angle

Press and hold the down button " " or press the right armrest the down button " " of the manual controller to start to adjust the angle of the massage chair downward. The backrest descends and the foot rest rises. Release the button to stop the adjustment;

Press and hold the up button " " or press the right armrest the up button " " of the manual controller to adjust the angle of the massage chair upward. The backrest rises and the foot rest falls. Release the button to stop the adjustment.

When the adjustment reaches the limit position, the adjustment will be stopped and a "beep" prompt sound will be issued.

## Operation Instructions

### 3. Foot rest angle

Press and hold the down key "  " or press the right armrest the down key  of foot rest of the manual controller to adjust the angle of the foot rest downward, and release the key to stop the adjustment;  
Press and hold the up key "  " or press the right armrest the up key  of the foot rest of the manual controller to adjust the angle of the foot rest upward, and release the button to stop the adjustment.  
When the adjustment reaches the limit position, the adjustment will be stopped and a "beep" prompt sound will be issued.

## XI. Customise (please use this function after startup)

As shown in the picture below, press the menu key to enter the customise menu interface, select a storage item and press the OK key, then press the OK key "  " on the storage or call item to select to store the current massage program or call the stored massage program; The same massage program cannot be added repeatedly. You can collect up to 3 massage programs.

## Operation Instructions

### XII. System settings (please use this function after startup)

1. Bluetooth, as shown in the picture below, enter the Bluetooth settings menu to turn on or off the Bluetooth audio function. After turning on the Bluetooth audio function, you can play music through connecting smart devices (mobile phones, tablets, etc.). The connection method is as follows:

- (1) Open the Bluetooth function on the smart device, search for the Bluetooth name of "IMCM-XXXXX" and connect.
- (2) Open the music player on the smart device to play music.

2. Voice, as shown in the picture below, you can turn on or off the voice assistant function by entering the voice assistant setting menu, or you can turn on or off the voice assistant function by long pressing the voice button "  " on the right armrest. After opening the voice assistant, you can use the voice assistant function to control the massage chair. The use method is as follows:

## Operation Instructions

- (1) Close to the right horn, say "Alice, Alice" to wake up the voice assistant, or press the right armrest voice button " " to wake up the voice assistant, and the voice assistant replies "please speak " to indicate that it has been awakened.
- (2) After waking up the voice assistant, please speak the command within 6 seconds to realize the function control of the massage chair. After the voice assistant responds to the command, you can continue to speak the command. The interval between two adjacent commands cannot over 6 seconds. Otherwise, you need to wake up the voice assistant again. The detailed voice command table is as follows:

Voice Control Entry		
Entry: "Hi Alice" or "Hey Alice". Answer: I am here.		
No.	Voice control entry	Answer entry
1	Massage on	Answer: Ok, massage on
2	Massage close	Answer: Ok, massage close
3	Comfort massage	Answer: Ok, comfort massage
4	Relax massage	Answer: Ok, relax massage
5	Full body massage	Answer: Ok, full body massage
6	Neck and shoulder massage	Answer: Ok, neck and shoulder massage
7	Back and waist massage	Answer: Ok, back and waist massage
8	Stretch massage	Answer: Ok, stretch massage
9	Fixed massage	Answer: ok, fixed massage
10	Change the other mode	Answer: Ok, change the other mode
11	Go little down	Answer: Ok, go little down
12	Go little up	Answer: Ok, go little up
13	Open the air pressure	Answer: OK, Open the air pressure
14	Close the air pressure	Answer: OK, Close the air pressure
15	Up the seat position	Answer: Ok, Up the seat position
16	Down the seat position	Answer: Ok, Down the seat position
17	Stop adjustment	Answer: Ok, stop adjustment

## Operation Instructions

3. Language, as shown in the figure below, into the language settings menu, select Chinese, English settings to choose one language.

4. Serial number, as shown in the picture below, enter the serial number setting menu to view the product serial number.

### XIII. Massage close

During the massage, press the hand control switch key " " or the right armrest switch key " " to turn off. Will immediately turn off all massage functions, reset the backrest and leg, or when the massage time is up, the massage automatically turns off all massage functions, and the backrest mechanism and leg mechanism do not reset.

Cut off the power supply of the whole machine, as shown in the attached picture (the schematic diagram of the power cut off of the whole machine).

## Cleaning And Maintenance

### Cleaning synthetic leather and plastic parts

#### Wipe the leather with a soft, dry cloth.

- Do not use chemicals such as thinner, gasoline, alcohol, etc. to clean the unit.
- When using commercially available leather care products (rags), please follow the instructions for use.
- If synthetic leather is particularly dirty, wipe it in the following way.
  - ① Immerse a soft cloth in water or hot water containing 3% to 5% neutral detergent, then wring it out thoroughly.
  - ② Use the above soft cloth to wipe the leather surface.
  - ③ Wipe off the cleaning solution with a cloth soaked in clean water and thoroughly wring out.
  - ④ Wipe with a wrung soft cloth.
  - ⑤ Let it air dry naturally.
- When it is difficult to remove stains, please immerse commercially available melamine foam in neutral detergent, and then wipe the machine with it.
- Do not use a hair dryer to dry the surface.
- Be careful when wiping the machine with denim and colored fabrics, as the color of the fabric will stain the surface of the synthetic leather.
- Do not keep these parts in contact with plastic for a long time, as this will cause discoloration.
- Synthetic leather may be discolored, so when using hair dye, please cover the touched part with a towel.

## Troubleshooting

<b>Fault</b>	When the calf mechanism or the backrest reaches a certain position, press the corresponding adjustment button and it will no longer change, and a continuous "beep, beep" sound will be emitted.
<b>Solution</b>	Due to product structure design and ergonomic requirements, this product has a limited protection design for the limit state of attitude adjustment. At the same time, a reminder sound will sound when the limit is reached.

<b>Fault</b>	The function does not work or some functions do not work after the machine is turned on.
<b>Solution</b>	After the machine is turned on by pressing the switch key, it is necessary to manually select an automatic massage program or other working state. If it is not operated, the machine will automatically shut down after 20 minutes. If the manual operation mode is selected, the functions that are not selected may be disabled, and the working mode needs to be manually set in the manual mode.

<b>Fault</b>	The machine makes a leather rubbing sound when adjusting its posture.
<b>Solution</b>	This product adopts high-grade anti-corrosion leather that meets environmental protection requirements. Due to the inherent characteristics of leather materials, there will be a normal slight noise when rubbing at the relative movement, which is a normal phenomenon. Note: If you hear fabric or leather tearing sound when the machine is running, please stop using it immediately and seek professional maintenance.

<b>Fault</b>	The massage wheel did not reach the shoulders or neck.
<b>Solution</b>	If the head does not touch the head cushion or the back does not touch the backrest, the shoulder position may be lower than the actual position during the body shape detection process. Sit in the deepest position of the seat, rest your head on the headrest, and start over from the beginning.

<b>Fault</b>	The unit is damaged. The power cord or power plug is abnormally hot.
<b>Solution</b>	To prevent accidents, be sure to contact an authorized service center.

Please feel free to contact the designated service personnel for any questions or doubts about this product.

## Product Specification

---

Model: GM-200 Plus

Name: Massage Chair

Rated voltage: 220-240V~ 50Hz/60Hz

Rated power: 90W

Rated time: 20min

Safety structure: Class I
